

The perfect setting

Diana Carmichael Artworks offers a comprehensive tableware range that meets the needs of a sophisticated, global clientele. Joining the designer pieces is Diana's new range of hand-painted table linen, sure to bring a unique style and grace to contemporary tables everywhere

Diana Carmichael, one of Africa's leading tableware and accessory designers, introduces a range of hand-painted table linen (made with 100% South African cotton) to complement her sophisticated pewter creations. From oceanic blue tones, for a relaxed beachside setting, to deep reds for a more festive look, the placemats, serviettes and runners are available in five rainbow hues, each designed to bring a unique ambience to any occasion.

Diana's passion for Africa and her jewellery-designing background have led her to create works inspired by life and art in Africa, creations that are influenced by the forms and textures of this extraordinary continent. The hallmark of the brand is the combination of different materials she uses, including Swarovski crystal, glass, springbok horn and African rosewood with pewter.

The Diana Carmichael Designer Tableware Collection is available at selected retail outlets. For more information, visit www.dianacarmichael.co.za or tel: (011) 477-4588.
