*We are here to Love*

Whatever we become here in mortality is meaningless unless it is done for the benefit of others. Our gifts and talents are given to us to help us serve.

And in serving others we grow spiritually.

We are here to help each other, to care for each other, to understand, forgive, and serve one another. We are here to have love for every person on earth.

( Betty J. Eadie, Embraced by the Light)
