

## ZERO FOOD WASTE DISPOSAL AT LANDFILL

### Menlyn Park Shopping Centre

**November 2016**

Menlyn Park Shopping Centre is an award-winning superregional shopping centre situated in the fast-developing Menlyn node in the capital city of Tshwane, South Africa.

This multi-level centre boasts over 500 tenants including a large base of international brands and flagship anchor stores. Menlyn Park has set new standard of becoming the biggest centre in Africa after undergoing a redevelopment of R 2.5 Billion.

With its recent expansion and refurbishment, Menlyn currently host over 500 stores, has a GLA of over 177 000m<sup>2</sup>, an option of 16 parking entrants and 12 parking exits and 8250 parking bays. Menlyn Park continues to strive to bring you even more of the best shopping, dining, entertainment and leisure experiences, in a world-class mall that expresses a unique modern design and uses innovative green building to enable excellent, efficient operations.

In November 2016 Menlyn installed a JK5100PD on-site in-vessel composter change the way the mall management del with its food waste challenges....from disposing of food waste to landfill to practising on-site composting in a manner that reduces the monthly waste costs, reduces the volume of waste disposed of at landfill, reducing their carbon footprint whilst enhancing their approach to sustainability etc.

This composting system (manufactured in Sweden) was supplied by Green Genie Waste Solutions (Hout Bay, Western Cape), sole importer and distributor of the Joraform in-vessel composting systems in Africa ([www.greengenie.co.za](http://www.greengenie.co.za)). The range of composter models can process food waste volumes ranging between 200kg to 15 tons of food /wet waste per month, producing certified "ready-to-use" organic compost .for the growth of above- and below ground produce without the need of further maturation.

To find out how Green Genie can assist you to further green your building initiatives, please contact Alfie Heeger on +27 (0)71 289 4562 or email [alfie@greengenie.co.za](mailto:alfie@greengenie.co.za)
